

RSV Planning Checklist:

Communication & Resources

HAVE YOU:

Reviewed the updated materials (e.g., MOH, PCMCH, Centre for Effective Practice) for 2026-2027?

Identified who to contact with questions about the RSV program (i.e., internal staff or external partners)?

Developed a plan to share RSV information with parents/guardians at your hospital?

- Consider how this information will address parent/guardians' top concerns about nirsevimab.

MOH

PCMCH

Team Roles & Responsibilities

HAVE YOU:

Made translated materials available to support local language needs?

[PCMCH Translated RSV Fact Sheet](#)

Clarified staff roles and responsibilities for delivering the program?

Staff Training

HAVE YOU:

Developed a plan to share RSV program information with staff?

Established a strategy for onboarding new staff to the program?

Planned refresher training for existing staff?

Identified approaches to address staff questions and concerns about nirsevimab?

Connecting with Partners

HAVE YOU:

Considered how to engage parents/guardians in RSV program planning and improvements?

Connected with your public health unit to explore integrating RSV program information into broader initiatives?

Partnered with prenatal care providers to:

- Support RSV education and information sharing with parents/guardians?
- Improve documentation of prenatal vaccination to support identification of eligible infants?

Connected with your regional network to share training materials and resources?

Monitoring & Sharing

HAVE YOU:

Developed a plan to monitor uptake of RSV prevention products?

Developed a plan to identify, monitor, and address barriers to RSV program delivery?

Established a process to collect and use feedback from parents/guardians to inform improvements?

Identified how findings and learnings will be shared with internal and external partners?

Did You Know?
