

**Proposal Justification
44390 John Wise Line
(By email dated: July 16, 2026)**

The reason Linda and I are wanting to build the ARU is that my daughter and her family will moving into the main residence. Linda and I are getting older and have some health issues. This way she will be close by should we need her.

The reason for the location of the ARU is to put it in the side yard we would have to tear down the barn. If we were to move it farther to the east or the back yard we would not be able to access the weeping bed.

Also in our opinion the property would look much more appealing by putting it where we suggest. In our opinion it is not really in the front yard but rather in the side yard.

Thank you

Cornerlius Willemse (Casey)
