Ontario Invests in Elgin Street Sport Park Rehabilitation

\$154,600 Ontario Trillium Foundation (OTF) Grant will replace aging infrastructure and boost recreation

COLBORNE, ON – David Piccini, MPP for Northumberland–Peterborough South, joined Cramahe Township officials on Friday to announce a \$154,600 Capital grant from the Ontario Trillium Foundation (OTF) to support Phase One of the Elgin Street Sport Park rehabilitation project.

The investment will help revitalize key recreational facilities, creating improved spaces for residents of all ages and abilities to stay active, connect with their community and enjoy local recreation.

“Our government is proud to invest in the infrastructure that keeps our communities strong,” said David Piccini, MPP for Northumberland–Peterborough South. “By supporting the rehabilitation of recreational facilities like Elgin Street Sport Park, we’re helping ensure families and residents of all ages can stay active and connected in their own communities.”

As part of this project, improvements include resurfacing the tennis and basketball courts, repairing and painting the ball hockey rink, replacing basketball nets and hardware, upgrading fencing where needed, and installing new lighting.

The project was developed by Cramahe Township staff and the volunteer Parks and Recreation Committee, with the support of Township Council. A second phase, estimated at \$100,000, is planned for the future.

“This investment by the Ontario Government through the Ontario Trillium Foundation is great news for the people of Cramahe Township,” said Matthew Dunleavy, Chair of the Parks and Recreation Committee.

“Our community will greatly benefit from this OTF grant,” said Mandy Martin, Mayor of Cramahe Township. “It ensures these vital recreational spaces will remain accessible for all through sport, play and community events.”

The Ontario Trillium Foundation (OTF) is an agency of the Ontario government with a mission to build healthy and vibrant communities across the province. In 2025-26, OTF invested nearly \$107M into 746 community projects. Projects aim to enhance economic well-being, foster more active lifestyles, support child and youth development, provide

spaces for people to come together and connect, and create a more sustainable environment.
