RFQ-2026-1 - Scrap Metal Removal at Dryden Municipal Landfill

The Corporation of the City of Dryden is seeking quotes for the removal of the scrap metal pile at the Dryden Municipal Landfill located on Highway 502 south of Dryden, Ontario, Canada.

SCOPE OF WORK

The RFQ services are to include the following:

1. To stipulate the purchase cost of the scrap metal to be paid to the City.
2. To provide all machinery necessary to complete the work.
3. Maintain a clean and safe worksite throughout the work, including working around the public during operating hours.
4. To load the metals and haul them from the landfill site.
5. Once all material has been removed from the landfill and a final weight of all material has been reviewed and accepted by both parties, the Contractor will submit payment to the City of Dryden at the tendered amount per tonne, within sixty (60) days of collecting salvaged metal from the Landfill site.

WORK SCHEDULE

The Contractor will be permitted access to the Dryden Municipal Landfill during regular business hours. If the Contractor is required to coordinate subcontractors, the Contractor will be responsible for the subcontractor's actions. The City will take no responsibility for the subcontractor.

The Contractor will coordinate all work with the Dryden Municipal Landfill's hours of operation.

INTENTION OF THE CITY

It is the intention of the City to obtain a quote most suitable to its interests and what it wishes to accomplish. Therefore, notwithstanding any other terms or conditions of this RFQ, the City has a right to:

- Waive any irregularity, insufficiency, or non-compliance in any quote submitted
- Accept or reject all or part of any quote
- Negotiate with a proponent to modify its quote to best suit the needs of the City
- Accept the quote that it determines to be most favourable to the interests of the City

The Corporation of the City of Dryden
Public Works Department
159 King St
Dryden, ON – P8N 1C5
Telephone: (807) 223-2367

CONSTRUCTION SAFETY

The Contractor shall be solely responsible for operation safety at the site and for compliance with the rules, regulations, and practices required by the applicable construction health and safety legislations and shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the performance of their work.

CONTRACTOR DOCUMENTS

The Contractor will provide the Municipality with the following information prior to arrival at the site:

- Signed Contractors Health and Safety Agreement (<https://www.dryden.ca/media/dogd5rsp/hr-hs-10-contractor-safety.pdf>)
- Proof of Insurance with The Corporation of the City of Dryden named as additional insured
- Clean WSIB Clearance
- 3 References from similar customers for the work described herein

CONTROL AND COORDINATION OF THE SALVAGE OPERATION

The Contractor shall have total control of the salvage operation and shall effectively direct and supervise the operation to ensure conformity with this Document.

The Contractor shall be solely responsible for recycling, methods, techniques, sequences, and procedures and for coordinating the various parts of the Work under the Contract.

The Contractor shall work with the Dryden Municipal Landfill Staff to ensure that landfill operations are not disrupted, and to ensure the safety of the general public.

PERSONAL PROTECTIVE EQUIPMENT

The Contractor is Responsible to provide and ensure Personal Protective Equipment (PPE) is used at all City worksites. PPE includes but is not limited to:

- ____ CSA Hard Hat*
- ____ CSA Hearing Protection**
- ____ CSA Eye Protection**
- ____ High Visibility Clothing*
- ____ CSA Footwear*
- ____ Respirator
- ____ Fall Protection
- ____ Other: _____

* = Must be worn by all workers on all City Worksites

** = Must be with all workers on all City Worksites and used when necessary
