

Reaching Home: Canada's Homelessness Strategy
Community Homelessness Report

Durham Region

2025-2026

TEMPLATE FOR COMMUNITIES

SECTION 1: COMMUNITY CONTEXT

Overview

CHR 1

Highlight any efforts and/or issues related to the work that your community has done to **prevent and/or reduce homelessness** and **improve access to safe, appropriate housing** over the last year.

Your response could include information about:

- Homelessness prevention and shelter diversion efforts;
- Housing move-ins;
- New investments in housing, subsidies and/or supports;
- Changes to investments in Housing First to respond to emerging needs, identifying the current percentage of Reaching Home funding allocated to this programming;
- Gaps in services;
- Efforts to support community capacity and/or innovation;
- Collaboration with other sectors;
- Efforts to address homelessness for specific groups (e.g., youth); and/or,
- Efforts to meet Reaching Home minimum requirements.

Over the past year, Durham Region continued to advance a coordinated, system-level approach to prevent and reduce homelessness while improving access to safe, appropriate housing across the housing continuum. This work focused on strengthening homelessness prevention and shelter diversion, increasing housing outcomes, enhancing system capacity, and responding to rising service complexity and visible homelessness through collaboration, data-informed decision-making, and targeted interventions.

Demand for homelessness services remained high throughout 2025, driven by housing affordability pressures, limited rental supply, and increased acuity among individuals experiencing homelessness. Beyond improvements in data collection and participation, there is also evidence of a real increase in homelessness in both scale and complexity.

Service providers are reporting growing demand, including from individuals who may not have previously accessed homelessness services but are no longer able to maintain housing due to affordability pressures.

In response, Durham Region strengthened system integration, planning, and management through ongoing oversight, regular system reporting, and coordination across Housing Services, Health and Social Services, municipalities, and community partners. Bi-monthly homelessness sector tables continued to support shared problem-solving, system alignment, and consistent practice across service providers.

Homelessness prevention and shelter diversion remained a key priority. Durham Region expanded coordinated access through additional system entry points, particularly in North Durham with the onboarding of The Nourish and Develop Foundation in Cannington. This helped reduce geographic barriers and reinforced a “no wrong door” approach. Improved service coordination and outreach supports further strengthened efforts to divert individuals from shelter and connect them to appropriate supports earlier.

Housing outcomes remained a central priority in 2025/26. In 2025, the homelessness system achieved 516 housing move-ins, representing a 47% increase over 2024. This improvement reflects strengthened coordinated access, the introduction of the Adult Vacancy Matching Table, and a continued focus on housing-focused service delivery. These outcomes were supported by rent supplements, targeted housing pathways, and ongoing case management to improve housing stability and reduce returns to homelessness.

New and adapted investments supported emerging needs and priority populations. Durham Region implemented a Canadian-Ontario Housing Benefit (COHB) Encampment Initiative supporting 65 households experiencing chronic homelessness. Targeted housing pathways were also implemented for specific populations, including Veterans, with nine individuals successfully matched to housing. The Seniors Motel Program was expanded to 20 spaces with enhanced supports, providing a low-barrier housing option for older adults with higher needs. These investments align with Housing First principles by prioritizing rapid access to housing with appropriate supports.

Winter response efforts were expanded and strengthened across all local area municipalities. This included enhanced

Winter Warming services, the launch of Durham's first dedicated Youth Winter Warming site, the establishment of a shower program in Whitby, and the publication of Regional Winter Warming Guidelines. In the North, where shelter capacity is limited, Winter Warming efforts were delivered through a motel-based program in partnership with community providers, offering temporary accommodation for individuals and families while longer-term housing options were explored. This approach reflects the need for flexible service delivery in areas without existing shelter infrastructure and highlights ongoing opportunities to explore more sustainable Winter Warming or shelter solutions in the North. Overall, these efforts improved consistency, safety, and access to low barrier supports during extreme weather conditions, particularly for individuals who remain unsheltered.

Durham Region continued to respond to the growth of visible homelessness and encampments through coordinated, compassionate approaches. Cross-departmental and cross-sector collaboration supported successful encampment resolutions, including the Achilles encampment, while prioritizing safety, dignity, and connection to housing and supports. Outreach, housing workers, emergency services, municipalities, and community partners worked together to ensure responses were fair, consistent, and focused on pathways out of homelessness.

System capacity and accountability were further strengthened through targeted investments in staffing, training, and standards. The addition of two Homelessness System Coordinators and a Business Technology Coordinator improved system oversight, data quality, and performance monitoring. Five sector-wide training sessions reached more than 60 partners, supporting shared practices and consistency across providers. The publication of Regional Shelter Standards further strengthened service quality, accountability, and alignment across funded programs.

Data continued to play a critical role in system planning and resource allocation. Durham Region completed and published the 2024 Point in Time Count and completed the 2025 enumeration, reinforcing evidence of sustained

growth in homelessness and the disproportionate impact on individuals experiencing chronic homelessness. Ongoing enhancements to HIFIS training, data quality, and reporting supported stronger coordinated access, improved By Name List accuracy, and more proactive, data-informed system planning.

Collaboration beyond the homelessness sector remained essential. Durham Region continued to work closely with municipalities, health and social services, libraries, businesses, and community organizations and agencies to build shared understanding and coordinated responses. In 2025, homelessness education and engagement reached 185 businesses, supporting broader community awareness and stigma reduction. The Region also hosted Durham's first Regional Homelessness Vigil in partnership with the GAP Committee, underscoring the human impact of homelessness and the importance of collective responsibility.

In summary, Durham Region continues to strengthen a Housing First, prevention-focused homelessness system grounded in coordination, data, and partnership. While significant challenges persist, particularly limited affordable housing supply, increasing acuity, and sustained demand, the Region remains committed to continuous improvement, equity, and collaboration to reduce homelessness and improve housing outcomes for residents.

CHR 2

How has the community's approach to addressing homelessness changed with the implementation of Reaching Home?

Communities are strongly encouraged to use the **"Reflecting on the Changing Response to Homelessness"** worksheet to help them reflect on how the approach has changed and the impact of these changes at the local level. Communities are also encouraged to reflect on changes to investments in Housing First over time, where applicable.

Over the past year, Durham Region has continued to strengthen a coordinated, data informed, and person centred approach to homelessness that reflects both the evolving nature of homelessness and the increasing complexity of needs in the community. The Region has shifted further toward system integration, shared accountability, and housing focused responses that prioritize prevention, equity, and improved outcomes.

An approach Durham has taken is a strong emphasis on education, engagement, and shared understanding across the community. The Region expanded homelessness education with local area municipalities, Regional Council, libraries, businesses, and community partners, engaging more than 185 businesses in conversations about homelessness. These efforts focused on challenging misconceptions and using local data to tell a more accurate story about who is experiencing homelessness, including the growing impacts of housing affordability, health vulnerabilities, trauma, and systemic barriers. This work helped build broader community awareness, reduce stigma, and support more consistent, compassionate responses.

In Durham, usage of the Coordinated Access and the By Name List as foundational system tools rather than standalone processes. Awareness and use of these tools have increased across the community, reinforcing and ensuring that people experiencing homelessness are assessed consistently and prioritized based on need. Expanded access points reflect a shift toward equity based system design that reduces geographic and structural barriers.

Another change has been a stronger focus on housing as the primary outcome, rather than shelter use as an end point. Durham Region has increasingly aligned services, funding, and partnerships toward improving system flow and housing exits. Tools such as vacancy matching, closer alignment between shelters and housing providers, and targeted pathways for priority populations demonstrate a system that is intentionally structured to support rapid housing and long term stability.

The community's approach has also become more responsive and differentiated, recognizing that homelessness does not look the same for everyone. The Region has targeted responses for specific populations, including youth, seniors, Veterans, and individuals experiencing chronic homelessness. This reflects a shift away from one size fits all solutions toward approaches that are grounded in equity, person centred planning, and cultural responsiveness.

Durham Region's emphasis on system performance, data quality, and accountability. Investments in staffing, data infrastructure, and standards have enabled the community to better understand trends, identify gaps, and adapt responses in real time. The regular use of HIFIS, By Name List analysis, and Point in Time Count data has shifted planning from reactive decision making toward more proactive and evidence based system management.

The approach to unsheltered homelessness and encampments has also evolved under Reaching Home. Rather than fragmented or enforcement led responses, the community increasingly relies on coordinated, cross sector engagement that prioritizes safety, dignity, and connection to housing and supports. Outreach, housing staff, municipalities, and emergency services now operate within more consistent frameworks that centre individuals' needs while balancing community impacts.

Collaboration between Indigenous and non-Indigenous partners

Note: It is expected that communities will continuously work to improve collaboration between Indigenous and non-Indigenous partners over time. If your community is working to improve a specific collaboration requirement that had been self-assessed as met in a previous CHR, you should still select "Yes" from the drop-down menu for this CHR.

CHR 3

Please select your community from the drop-down menu:

Durham Region (ON)

Your community: Has only DC funding available.

CHR 4

a) Has there been meaningful collaboration between the DC CE and local Indigenous partners, including those that sit on your CAB, over the reporting period specific to the work of:

Implementing, maintaining and/or improving the Coordinated Access system?	Yes (Continuous improvement)
Implementing, maintaining and/or improving, as well as using the HMIS?	Yes (Continuous improvement)
Strengthening the Outcomes-Based Approach?	Yes (Continuous improvement)

As a reminder, meaningful collaboration with local Indigenous partners is expected for your community.

b) When asked whether collaboration occurred, under **CHR 4(a)**, you answered Yes (Continuous improvement) or No (Under development) to **at least one** of the following: Coordinated Access, the HMIS and/or the Outcomes-Based Approach. As a follow up to this, please indicate **if any** of the following activities took place:

Your community has established processes (formal or informal) for engaging with Indigenous partners on issues related to Coordinated Access and/or the HMIS.	
→ Coordinated Access:	Yes
→ HMIS:	No
Indigenous partners have roles and responsibilities related to governance for the Coordinated Access system and/or the HMIS throughout the lifecycle of these systems (implementation, maintenance and improvement).	
→ Coordinated Access:	Yes
→ HMIS:	No
Indigenous partners participate in Coordinated Access:	No
Indigenous partners actively use the HMIS:	No

Indigenous partners have access to HMIS data and reports:	No
Indigenous partners participate in the Outcomes-Based Approach:	No

Note: As applicable, these activities should be described in further detail in CHR 4(c). This list is not meant to be exhaustive. Other relevant activities not listed above should be described in CHR 4(c).

c) When asked whether collaboration occurred, under **CHR 4(a)**, you answered Yes (Continuous improvement) or No (Under development) to **at least one** of the following: Coordinated Access, the HMIS and/or the Outcomes-Based Approach. As a follow up to this, please describe the collaboration that took place in more detail.

Your response should include when collaboration with Indigenous partners occurred, who it was with, what it involved, and how Indigenous perspectives influenced outcomes.

Collaboration with Indigenous partners includes a partnership with Durham Community Health Centre (DCHC) to support Indigenous informed capacity building across the homelessness system. Through this partnership, training was collaboratively developed and delivered then delivered by DCHC to service providers to strengthen understanding of Indigenous experiences of homelessness and promote culturally safe, trauma informed, and relationship based approaches.

Indigenous perspectives emphasized the importance of trust building, flexibility, and person centred engagement. These perspectives influenced system practice by reinforcing the need for coordinated access and housing pathways to be responsive to individual circumstances and cultural context. This learning has informed ongoing system planning and continuous improvement efforts.

CHR 5

a) Specific to the completion of this Community Homelessness Report (CHR), did ongoing, meaningful collaboration take place with the local Indigenous partners, including those that sit on your CAB?

No

As a reminder, meaningful collaboration on the CHR with local Indigenous partners is expected for your community.

d) When asked whether collaboration occurred related to the completion of the CHR, under **CHR 5(a)**, you answered No. As a follow up to this, please answer this two part question:

i) Please describe why collaboration did not take place in more detail.

In this year's CHR, we did not collaborate with Indigenous partners, and we acknowledge this as a gap. We recognize the importance of Indigenous participation in system reflection and are committed to ensuring meaningful Indigenous collaboration in future reporting cycles.

While partners were not directly involved in the completion of the CHR itself, collaboration occurred throughout the year through homelessness sector tables, system planning activities, training, and targeted partnerships. These engagements informed the system priorities and improvements reflected in the report. The homelessness system also has the opportunity to review the CHR and provide feedback or recommendations where information may be missing, supporting continuous improvement.

ii) Please describe what the plan is to ensure meaningful collaboration occurs **during next year's CHR process**. Your response should include when collaboration with Indigenous partners will occur, who it will take place with and what the it will involve.

For the 2026/27 CHR process, Durham Region will intentionally involve partners earlier in the reporting cycle to support shared reflection and input. This will include engagement with Durham Community Health Centre (DCHC) to incorporate Indigenous perspectives in reviewing gaps, priorities, and system learning, and applying lessons from ongoing work with Built for Zero (BFZ). These steps will help ensure future CHRs are informed by collaboration rather than completed solely as an internal exercise.

End of Section 1

SECTION 2: COORDINATED ACCESS SELF-ASSESSMENT

Note: It is expected that communities will continuously work to improve their Coordinated Access system over time. If your community is working to improve a specific Coordinated Access requirement that had been self-assessed as met in a previous CHR, you should still select “Yes” from the drop-down menu for this CHR.

Governance and Partnerships

Note: For communities that receive both Designated Communities (DC) and Indigenous Homelessness (IH) funding, this section is specific to the **DC Community Advisory Board (CAB)**.

CA 1 Communities must maintain an integrated, community-based governance structure that supports a transparent, accountable and responsive Coordinated Access system, with use of an HMIS. The CAB must be represented in this structure in some way.

	a) Is an integrated, community-based governance structure in place that supports a transparent, accountable and responsive Coordinated Access system and use of the local HMIS?	Yes
	b) Have Terms of Reference for the integrated, community-based governance structure been documented and, if requested, can they be made publicly available?	Yes
CA 2	Does the integrated governance structure that supports Coordinated Access and use of HMIS include representation from the following:	
	- Federal Homelessness Roles: → Community Entity:	Yes – as a CAB member with ex-officio status and a member of the overall governance structure
	→ Community Advisory Board:	Yes
	→ Housing, Infrastructure and Communities Canada (HICC):	Yes – as a CAB member with ex-officio status
	→ Organization that fulfills the role of Coordinated Access Lead:	Yes
	→ Organization that fulfills the role of HMIS Lead:	Yes
	- Homelessness roles from other orders of government: → Provincial or territorial government:	Yes – as a CAB member and a member of the overall governance structure

→ Local designation(s) relative to managing provincial or territorial homelessness funding, as applicable (e.g., Service Manager in Ontario):	Yes
→ Municipal government:	Yes – as a CAB member and a member of the overall governance structure
→ Local designation(s) relative to managing municipal homelessness funding, as applicable:	Yes
• Local groups with a mandate to prevent and/or reduce homelessness, as applicable:	Yes
• Local Indigenous partners:	Yes – as a CAB member and a member of the overall governance structure
• Population groups the Coordinated Access system intends to serve (e.g., providers serving youth experiencing homelessness):	Yes – as a CAB member and a member of the overall governance structure
• Types of service providers that help prevent homelessness and those that help people transition from homelessness to safe, appropriate housing in the community:	Yes – as a CAB member and a member of the overall governance structure
• People with lived experience of homelessness:	Yes

CA 3	Is there a document that identifies how various homeless-serving sector roles and groups are integrated and aligned in support of the community's overall goals to prevent and reduce homelessness and, if requested, can this documentation be made publicly available? At minimum, the following roles and groups must be included: • Community Entity; • Community Advisory Board; • Coordinated Access Lead and HMIS Lead; • Provincial or territorial and municipal designations relative to managing homelessness funding, as applicable; • Local groups with a mandate to prevent and/or reduce homelessness, as applicable; and, • Local Indigenous partners.	Yes
CA 4	a) Has a Coordinated Access Lead organization been identified?	Yes
	b) Has an HMIS Lead organization been identified?	Yes
	c) Do the Coordinated Access Lead and HMIS Lead collaborate to: • Improve service coordination and data management; and, • Increase the quality and use of data to prevent and reduce homelessness?	Yes
	d) Have Coordinated Access Lead and HMIS Lead roles and responsibilities been documented and, if requested, can this documentation be made publicly available?	Yes

CA 5	Has there been meaningful collaboration between the DC CE and local Indigenous partners, including those that sit on your CAB, over the reporting period specific to the work of implementing, maintaining and/or improving the Coordinated Access system? Note: The response to this question is auto-populated from CHR 4(a).	Yes (Continuous improvement)
CA 6	a) Consider the CAB expectations outlined below. Is the CAB currently fulfilling expectations related to its role with addressing homelessness in the community?	Yes

Background: The Reaching Home Directives outline expectations specific to the CAB and its role with addressing homelessness in the community. These expectations are summarized below under four roles.

Community-Based Leadership: To support its role, collectively, the CAB:

- Is representative of the community;
- Has a comprehensive understanding of the local homelessness priorities in the community; and,
- Has in-depth knowledge of the key sectors and systems that affect local priorities.

Planning:

- In partnership with the Community Entity, the CAB gathers all available information related to local homelessness needs in order to set direction and priorities, understand what is working and what is not, and develop a coordinated approach to meet local priorities.

- The CAB helps to guide investment planning, including developing the Reaching Home Community Plan and providing official approval, as well as assessing and recommending projects for Reaching Home funding to the Community Entity.

Implementation and Reporting:

- The CAB engages in meaningful collaboration with key partners, including other orders of government, Indigenous partners, as well as entities that coordinate provincial or territorial homelessness initiatives at the local level, where applicable.
- The CAB coordinates efforts to address homelessness at the community level by supporting the Community Entity to implement, maintain, and improve the Coordinated Access system, actively use the local HMIS, as well as prevent and reduce homelessness using an Outcomes-Based Approach.
- The CAB approves the Reaching Home Community Homelessness Report.

Alignment of Investments:

- CAB members from various orders of government support alignment in investments (e.g., they share information on existing policies and programs, as well as updates on funding opportunities and funded projects).
- CAB members provide guidance to ensure federal investments complement existing policies and programs.

CA 7

Are the following CAB documents being maintained **and** are they available upon request?

- Terms of Reference.

Yes

- Engagement strategy that explains how the CAB intends to: → Achieve broad and inclusive representation; - Coordinate partnerships with the necessary sectors and → systems to meet its priorities (e.g., beyond the homeless-serving sector); and, → Integrate local efforts with those of the province or territory.	Yes
Procedures for addressing real and/or perceived conflicts of interest (e.g., members recuse themselves when they have ties to proposed projects), including the membership of elected municipal officials.	Yes
Procedures for assessing and recommending project proposals for federal funding under Reaching Home (e.g., supporting a fair, equitable, and transparent assessment process as set out by the Community Entity).	Yes
Exclusive and shared responsibilities between the CAB and Community Entity.	Yes
- Membership terms and conditions, including: → Recruitment processes; → Length of tenure; → Attendance requirements; → Delegated tasks; and, - Having at least two seats available for the alternate Community → Entity and CAB/Regional Advisory Board (RAB) member, where applicable.	Yes

CA 8	a) Do all service providers receiving funding under the Designated Communities (DC) or Territorial Homelessness (TH) stream participate in the Coordinated Access system?	Yes
	b) Has participation in the Coordinated Access system been encouraged from providers that serve people experiencing or at-risk of homelessness, and do not receive Reaching Home funding? They may or may not have agreed to participate at this time.	Yes
	c) Has participation been encouraged from providers that could fill vacancies through the Coordinated Access system (e.g., they have housing units, subsidies and/or supports that could be accessed by people experiencing homelessness), and do not receive Reaching Home funding? They may or may not have agreed to participate at this time.	Yes
Systems Map and Resource Inventory		
CA 9	a) A systems map identifies and describes the service providers that participate in the Coordinated Access system. Does the community have a current systems map and , if requested, can it be made publicly available?	Yes
	b) Does the systems map include the following elements:	
	→ Name of the organization and/or service provider:	Yes
	→ Type of service provider (e.g., emergency shelter, supportive housing):	Yes
	→ Funding source(s):	Yes
	→ Eligibility for service (e.g., youth):	Yes

	→ Capacity to serve (e.g., number of units):	Yes
	→ Role in the Coordinated Access system (e.g., access point):	Yes
	→ Role with maintaining quality data used for a Unique Identifier List (e.g., keep data up-to-date for housing history):	Yes
	→ If the service provider currently uses the HMIS:	Yes
c) Over the last year, was the systems map used to guide efforts to improve:		
	→ The Coordinated Access system (e.g., identify opportunities to increase participation):	Yes
	→ Use of the HMIS (e.g., identify opportunities to onboard new service providers):	Yes
	→ Data quality (e.g., increase data comprehensiveness):	Yes
CA 10	a) Are all housing and related resources funded under the DC or TH stream included in the Resource Inventory? This means that they fill vacancies using the Unique Identifier List, following the vacancy matching and referral process.	Yes
	b) For each housing and related resource in the Resource Inventory, have eligibility criteria been documented?	Yes
	c) For each housing and related resource in the Resource Inventory, have prioritization criteria, and the order in which they are applied, been documented and , if requested, can this documentation be made available? At minimum, depth of need (i.e., acuity) must be included as a factor in prioritization.	Yes
Service Navigation and Case Conferencing		

CA 11	a) Are there processes in place to ensure that people are being supported to move through the Coordinated Access process? This is often referred to as service navigation or case conferencing.	Yes
	b) Have these processes been documented and , if requested, can this documentation be made available?	Yes
	c) Do the processes include expectations for the following:	
	→ Helping people to identify and overcome barriers to accessing appropriate services and/or housing and related resources.	Yes
	→ Keeping people's information up-to-date in the HMIS (e.g., interaction with the system, housing history, as well as data used to inform eligibility and prioritization for housing and related resources).	Yes
Access Points to Service		
CA 12	a) Are access points available in some form throughout the geographic area covered by the DC or TH funded region, so that people experiencing or at-risk of homelessness can be served regardless of where they are in the community?	Yes
	b) Have access points been documented and is this information publicly available?	Yes
CA 13	a) Are there processes in place to monitor if there is easy, equitable and low-barrier access to the Coordinated Access system and to respond to any issues that emerge, as appropriate?	Yes
	b) Have these processes been documented and , if requested, can this documentation be made available?	Yes

Initial Triage and more In-Depth Assessment

CA 14

a) Is the triage and assessment process documented in one or more policies/protocols?

Yes

b) Does the **documented** triage and assessment process address the following and, if requested, can the documentation be made available:

→ **Consents:** Ensuring that people have a clear understanding of the Coordinated Access system, as well as how their personal information will be shared and stored. Includes addressing situations where people may benefit from services, but are not able or willing to give their consent.

Yes

→ **Intakes:** Documenting that people have connected or reconnected with the Coordinated Access system and have been entered into the HMIS, including obtaining or reconfirming consents, creating or updating client records, and entering transactions in the HMIS.

Yes

→ **Initial triage:** Ensuring safety and meeting basic needs (e.g., food and shelter), and guiding people through the process of stopping an eviction (homelessness prevention) or finding somewhere to stay that is safe and appropriate besides shelter (shelter diversion).

Yes

→ **More in-depth assessment:** Gathering information to gain a deeper understanding of people's housing-related strengths, depth of need, and preferences, including through the use of a common assessment tool(s) to inform prioritization for vacancies in the Resource Inventory.

Yes

	→ Community referrals: Gathering information to understand what services people are eligible for and identifying where they can go to get their basic needs met, get help with a housing plan and/or connect with other related resources.	Yes
	→ Housing plans: Documenting people's progress with finding and securing housing (with appropriate subsidies and/or supports, as applicable).	Yes
	→ Using a person-centered approach: Tailoring use of common tools to meet the needs and preferences of different people or population groups (e.g., youth), while also maintaining consistency in process across the Coordinated Access system.	Yes
CA 15	a) Is a common, unified triage and assessment process being applied across all population groups in the community and , if requested, can this documentation be made available?	Yes
	b) If more than one triage and/or assessment tool is being used, is there a protocol in place that describes:	
	→ When each tool should be used (e.g., tools used only for youth verses those that can be used with more than one population group).	Yes
	→ When a person/family could be asked to complete more than one tool (e.g., if an individual becomes part of a family or a youth becomes an adult).	Yes

	How the matching process will be managed in situations where more than one person/family is eligible for the same vacancy and, because data to inform prioritization was collected using different tools, results are not the same (e.g., one tool gives a higher score for depth of need than the other). →	Yes
Vacancy Matching and Referral with Prioritization		
CA 16	a) Is the vacancy matching and referral process documented in one or more policies/protocols?	Yes
	b) Does your documented vacancy matching and referral process address the following:	
	→ Roles and responsibilities: Describing who is responsible for each step of the process, including data management.	Yes
	→ Prioritization: Identifying how prioritization criteria is used to determine an individual or family's relative priority on the Priority List (a subset of the broader Unique Identifier List) when vacancies become available (i.e., how the Priority List is filtered and/or sorted).	Yes
	→ Referrals: What information to cover when referring an individual or family that has been matched and how their choice will be respected, including allowing individuals and families to reject a referral without repercussions.	Yes
	→ Offers: What information to cover when a provider is offering a vacancy to an individual or family that has been matched and tips for making informed decisions about the offer.	Yes

	→ Challenges: How concerns and/or disagreements about prioritization and referrals will be managed, including criteria by which a referral could be rejected by a provider following a match.	Yes
	→ Resource Inventory management: Steps to track real-time capacity, transitions in/out of units, occupancy/caseloads, progress with referrals/offers, and housing outcomes.	Yes
CA 17	Are vacancies from the Resource Inventory filled using a Priority List, following the vacancy matching and referral process?	Yes
Section 2 Summary Tables		
The tables below provides a summary of the work your community has done so far to meet the Reaching Home minimum requirements under the Coordinated Access and CAB Directives .		

Reminder: As per **Coordinated Access Minimum Requirement 1** under the Reaching Home directives, communities must meet all Coordinated Access minimum requirements by March 31, 2026.

	Completed	Started	Not Yet Started
Total	17	0	0

Coordinated Access	Completed (score)	Completed (%)
Governance and partnerships (out of 8 points)	8	100%
System map and Resource Inventory (out of 2 points)	2	100%
Service navigation and case conferencing (out of 1 point)	1	100%
Access points (out of 2 points)	2	100%
Initial triage and more in-depth assessment (out of 2 points)	2	100%
Vacancy matching and referral with prioritization (out of 2 points)	2	100%
All (out of 17 points)	17	100%

End of Section 2

SECTION 3: HOMELESSNESS MANAGEMENT INFORMATION SYSTEM AND OUTCOMES-BASED APPROACH SELF-ASSESSMENT

Context

CHR 7	a) In your community, is the Homeless Individuals and Families Information System (HIFIS) the Homelessness Management Information System (HMIS) that is being used?	Yes

Note: Throughout Section 3 and Section 4 of this CHR, questions that ask about the “HMIS” or the “dataset” refer to the HMIS identified in question CHR 7.

Homelessness Management Information System (HMIS)

HIFIS 1	Is an HMIS being actively used to collect and manage individual-level client data (i.e., person-specific data) and service provider information for Coordinated Access and for the Outcomes-Based Approach? This includes using the HMIS to generate data for the Unique Identifier List and outcome reporting.	Yes
HIFIS 2	a) Are all Reaching Home-funded service providers actively using the same HMIS to manage individual-level client data (i.e., person-specific data) and service provider information for Coordinated Access and for the Outcomes-Based Approach?	Yes

	b) Over the last year, were other providers (including those receiving other Reaching Home or federal funding, as well as non-federal funding) that serve people experiencing or at-risk of homelessness encouraged to actively use the HMIS? They may or may not have agreed to do so at this time.	Yes
HIFIS 3	a) Has the Community Entity signed the latest Data Provision Agreement (find the latest version <u>here</u> , which includes the Racial Identity field in the annex) with Housing, Infrastructure and Communities Canada (HICC)? This may have been done in a previous year.	Yes
	b) Are local agreements in place to manage privacy, data sharing and client consent related to the HMIS? These agreements must comply with municipal, provincial/territorial and federal laws and include: • A Community Data Sharing Agreement; and, • A Client Consent Form.	Yes
	c) Are processes in place that ensure there are no unnecessary barriers preventing Indigenous partners from accessing the HMIS data and/or reports they need to help the people they serve?	Yes
HIFIS 4	Has the Community Entity updated HIFIS to the latest version that was most recently confirmed as mandatory by HICC?	Yes
HIFIS 5	Has there been meaningful collaboration between the DC CE and local Indigenous partners, including those that sit on your CAB, over the reporting period specific to the work of implementing, maintaining and/or improving, as well as the use of the HMIS? Note: The response to this question is auto-populated from CHR 4(a).	Yes (Continuous improvement)

Data Uniqueness	
OBA 1	a) Does the dataset include people currently experiencing homelessness that have interacted with the homeless-serving system? Yes
	b) Do people appear only once in the dataset? Yes
	c) Do people give their consent to be included in the dataset? Yes
OBA 2	Is there a written policy/protocol (“Inactivity Policy”) that describes how interaction with the homeless-serving system is documented? The policy/protocol must: • Define what it means to be “active” or “inactive”; • Define what keeps someone “active” (e.g., data entry into specific fields in HIFIS); • Specify the level of effort required by service providers to find people before they become “inactive”; • Explain how to document a person’s first time as “active”, as well as changes in “activity” or “inactivity” over time; and, • Explain how to check for data quality (e.g., run a report that shows the clients that are about to become inactive and work with outreach workers to update their files and keep them active, as needed). Yes
OBA 3	Is there a written policy/protocol that describes how housing history is documented (e.g., as part of a broader data entry guide for the HMIS)? The policy/protocol must: • Define what it means to be “homeless” or “housed” (e.g., define a housing continuum that shows which housing types align with a status of “homeless” versus “housed”); • Explain how to enter housing history consistently; and, • Explain how to check for data quality (e.g., run a report that shows the percentage of clients that have complete housing history, so that “unknown” fields can be updated). Yes
Data Consistency	

OBA 4	To support Coordinated Access, is the HMIS used to generate data for a Unique Identifier List?	Yes
OBA 5	Is the HMIS used to <u>collect data</u> for setting baselines, setting reduction targets and tracking progress for the following community-level outcomes:	
	→ Overall homelessness:	Yes
	→ Newly identified as experiencing homelessness:	Yes
	→ Returns to homelessness:	Yes
	→ Indigenous homelessness:	Yes
	→ Chronic homelessness:	Yes
Data Timeliness		
OBA 6	Is the dataset updated <u>as soon as</u> new information is available about a person for:	
	→ Interaction with the system (e.g., changes from “active” to “inactive”).	Yes
	→ Housing history (e.g., changes from “homeless” to “housed”).	Yes
	→ Data that is relevant and necessary for Coordinated Access (e.g., data used to determine who is eligible and can be prioritized for a vacancy).	Yes
OBA 7	Is data readily available and accessible, so that it can be used for Coordinated Access, the Outcomes-Based Approach and to drive the prevention and reduction of homelessness more broadly?	Yes

Data Completeness		
OBA 8	Are processes in place to ensure that all relevant and necessary data for filling vacancies is complete? For example, is data used to determine if someone is eligible and can be prioritized for a vacancy complete for each person in the dataset?	Yes
OBA 9	Are processes in place to ensure that data for every person in the dataset is as complete as possible for:	
	→ Interaction with the system:	Yes
	→ Housing history (including data about where people were staying immediately before becoming homeless and, once they've exited, where they went):	Yes
	→ Indigenous identity:	Yes
Data Comprehensiveness		
OBA 10	Does the dataset include all household types (e.g., singles and families experiencing homelessness)?	Yes
OBA 11	Does the dataset include people experiencing sheltered homelessness (e.g., staying in emergency shelters)?	Yes
OBA 12	Does the dataset include people experiencing unsheltered homelessness (e.g., people living in encampments)?	Yes
CHR 9	The following questions aim to help consider other factors that may impact data comprehensiveness. They do not directly assess progress with the minimum requirements.	
	a) Does the dataset include the following household types, as much as possible right now:	

→ Single adults:

Yes

→ Unaccompanied youth:

Yes

→ Families

Yes – Only heads of households

b) Does the dataset include people staying in the following types of shelter:

→ Permanent emergency shelter:

Yes

→ Seasonal or temporary emergency shelter:

Yes

→ Hotels/motel stays paid for by a service provider:

Yes

→ Domestic violence shelters:

Yes

c) Does the dataset include the following groups of people who have interacted with the system:

→ People that identify as Indigenous:

Yes

→ People as soon as they interact with the system:

Yes – people are added on the first day

→ People experiencing hidden homelessness:

Yes

→ People staying in transitional housing:

Yes

	→ People staying in public institutions who do not have a fixed address (e.g., jail or hospital):	Yes
OBA 13	Under Reaching Home, at minimum, a comprehensive dataset includes all household types (OBA 10), people experiencing sheltered homelessness (OBA 11) and people experiencing unsheltered homelessness (OBA 12), as applicable. Consider your answers to questions OBA 10, OBA 11, OBA 12 and CHR 9. Does the dataset include everyone currently experiencing homelessness that has interacted with the homeless-serving system, as much as possible right now?	Yes
Data Use		
OBA 14	Note: For the purpose of this CHR, the dataset can only be used for monthly reporting if there is at least one full month of data available, and for annual reporting if there is at least one full fiscal year of data available.	
	a) <u>Can the dataset be used to set</u> monthly and annual baselines and reduction targets for the following community-level outcomes:	
	→ Overall homelessness:	Yes
	→ Newly identified as experiencing homelessness:	Yes
	→ Returns to homelessness:	Yes
	→ Indigenous homelessness:	Yes
	→ Chronic homelessness:	Yes
	b) <u>Is the dataset being used to set</u> monthly and annual baselines and reduction targets for the following community-level outcomes:	

	→ Overall homelessness:	Yes
	→ Newly identified as experiencing homelessness:	Yes
	→ Returns to homelessness:	Yes
	→ Indigenous homelessness:	Yes
	→ Chronic homelessness:	Yes
OBA 15	Is data used to <u>inform action</u> related to preventing and reducing homelessness?	Yes
b) How is data being used to inform action? Please provide specific examples. Your response should include: • Examples of how data is used to develop and/or update clear plans of action for reaching your reduction targets; and/or, • Examples of how data is used to inform action in policy-making, program planning, performance management, investment strategies and/or service delivery.		
Yes. Durham Region uses data from HIFIS, the By-Name List (BNL), Coordinated Access, and Point-in-Time (PiT) Counts to inform planning, service delivery, and investment decisions related to homelessness prevention and reduction.		
For example, BNL and Coordinated Access data are used to prioritize individuals for housing, guide vacancy matching, and focus resources on people experiencing chronic or higher-acuity homelessness. Housing placement and retention data informs adjustments to shelter-to-housing pathways and targeted supports for priority populations. PiT Count and enumeration data is used to understand trends, identify gaps, and support decisions related to outreach, winter response, and system capacity. Together, this data supports evidence-based planning, performance management, and continuous system improvement.		

CHR 10	The following questions aim to determine how you will report data in Section 4 of your CHR.						
	<table border="1"> <tr> <td data-bbox="317 350 1631 431">a) What is the earliest you can report <u>monthly</u> data in Section 4 of your CHR, inclusively?</td><td data-bbox="1631 350 1961 431">March 2021</td></tr> <tr> <td data-bbox="317 431 1631 513">b) What is the earliest you can report <u>annual</u> data in Section 4 of your CHR, inclusively?</td><td data-bbox="1631 431 1961 513">2022-23</td></tr> <tr> <td data-bbox="317 513 1631 813"> c) For 2025-26, did you use the Canadian methodology to report on outcomes in Section 4? Reminder: By March 31, 2026, all communities are expected to use the Canadian methodology for outcome reporting in their CHR. HIFIS users can use the Community Outcomes Report (COR) in HIFIS for Section 4. Non-HIFIS users must develop an equivalent report to the Canadian methodology for Section 4. </td><td data-bbox="1631 513 1961 813">Yes</td></tr> </table>	a) What is the earliest you can report <u>monthly</u> data in Section 4 of your CHR, inclusively?	March 2021	b) What is the earliest you can report <u>annual</u> data in Section 4 of your CHR, inclusively?	2022-23	c) For 2025-26, did you use the Canadian methodology to report on outcomes in Section 4? Reminder: By March 31, 2026, all communities are expected to use the Canadian methodology for outcome reporting in their CHR. HIFIS users can use the Community Outcomes Report (COR) in HIFIS for Section 4. Non-HIFIS users must develop an equivalent report to the Canadian methodology for Section 4.	Yes
a) What is the earliest you can report <u>monthly</u> data in Section 4 of your CHR, inclusively?	March 2021						
b) What is the earliest you can report <u>annual</u> data in Section 4 of your CHR, inclusively?	2022-23						
c) For 2025-26, did you use the Canadian methodology to report on outcomes in Section 4? Reminder: By March 31, 2026, all communities are expected to use the Canadian methodology for outcome reporting in their CHR. HIFIS users can use the Community Outcomes Report (COR) in HIFIS for Section 4. Non-HIFIS users must develop an equivalent report to the Canadian methodology for Section 4.	Yes						
Partnerships							
OBA 16	Has there been meaningful collaboration between the DC CE and local Indigenous partners, including those that sit on your CAB, over the reporting period specific to the work of strengthening the Outcomes-Based Approach? Note: The response to this question is auto-populated from CHR 4(a).						
Data quality improvement							
OBA 17	<table border="1"> <tr> <td data-bbox="317 1219 1631 1300">a) Are efforts being made to improve data quality?</td><td data-bbox="1631 1219 1961 1300">Yes</td></tr> </table>	a) Are efforts being made to improve data quality?	Yes				
a) Are efforts being made to improve data quality?	Yes						

b) How was data quality improved? Please provide specific examples. Your response could reference one or more dimensions of data quality:

- Data uniqueness
- Data consistency
- Data timeliness
- Data completeness
- Data comprehensiveness

Mandatory HIFIS training and data quality checks are conducted year-round, including one-on-one support for agencies requiring additional guidance. Agencies complete quarterly reviews of key HIFIS reports to ensure data accuracy, with issues identified and addressed as they arise.

Internal report development is supporting ongoing system data cleanup, including improvements to the Family Module and the merging of duplicate client records where explicit consent exists. Manager and Data Lead training has been introduced, along with sector-wide presentations for frontline staff focused on effective data collection and the importance of data quality.

Reporting on other Community-Level Outcomes

CHR
11

a) Beyond the five mandatory core outcomes under Reaching Home, do you wish to include any additional monthly community-level outcomes for this CHR?

Reminder: Reporting on additional community-level outcomes is optional.

No

b) Beyond the five mandatory core outcomes under Reaching Home, do you wish to include any additional annual community-level outcomes for this CHR?

Reminder: Reporting on additional community-level outcomes is optional.

No

Section 3 Summary Tables

The tables below provides a summary of the work your community has done so far to meet the Reaching Home minimum requirements under the **HIFIS Directive**.

	Completed	Started	Not Yet Started
Total	5	0	0

Homelessness Management Information System	Completed (score)	Completed (%)
Homelessness Management Information System (out of 5 points)	5	100%

All (out of 5 points)	5	100%
------------------------------	----------	-------------

The tables below provides a summary of the work your community has done so far to meet the Reaching Home minimum requirements under the **Outcomes-Based Approach Directive**.

Reminder: As per **HIFIS Minimum Requirement 1** and **Outcomes-Based Approach Minimum Requirement 1** under the Reaching Home directives, communities must meet all HIFIS and Outcomes-Based Approach minimum requirements by March 31, 2026.

	Completed	Started	Not Yet Started
Total	17	0	0

Outcomes-Based Approach	Completed (score)	Completed (%)
Data uniqueness (out of 3 points)	3	100%

Data consistency (out of 2 points)	2	100%
Data timeliness (out of 2 points)	2	100%
Data completeness (out of 2 points)	2	100%
Data comprehensiveness (out of 4 points)	4	100%
Data use (out of 2 points)	2	100%
Partnerships (out of 1 point)	1	100%
Data quality improvement (out of 1 point)	1	100%
All (out of 17 points)	17	100%

End of Section 3

SECTION 4: COMMUNITY-LEVEL OUTCOMES AND TARGETS

Using person-specific data to set baselines, set reduction targets and track progress – Monthly data

O1(M) Outcome #1: Fewer people experience homelessness (homelessness is reduced overall)										
Given your answers in Section 3, you can report monthly result(s) for Outcome #1 using your person-specific data.										
	March 2020	March 2021	March 2022	March 2023	March 2024	March 2025	March 2026	March 2027	March 2028	Target
People who experienced homelessness for at least one day (that month)		644	652	636	855	1267	2522			736

O1(M)

a) What is your baseline year? The baseline is the year from which you measure change. This may be the first year you submitted outcomes, but could be the year where you have the most confidence in your data.

March 2024

Overall homelessness will decrease by 14% between March 2024 and March 2028.

b) Please use the comment box below to:

- As applicable, explain any changes to the data reported from the previous CHR (2024-25), including to the data itself, the baseline and the target.
- As applicable, explain the use of “N/A” for one or more data points. As a reminder, no cells should be left blank.
- Optionally, provide any additional context on your data.

The data source has changed from previous reporting. For this 2025-2026 Community Homelessness Report, all data provided is generated from the HIFIS Community Outcomes Report to ensure a representative number from our community.

The target is set to the average number between 2023 and 2024. This specific target has been set as each year we become more confident in our data accuracy, as well as ongoing engagement and information for service providers for HIFIS user training. Our community also reports By-Name List data to Built for Zero each month for different data reflection.

c) **Introducing Data Annotations** – where you can highlight trends and explore the reasons behind them (**optional**):

Please select two reporting periods below for which you would like to add a data annotation for:

From:

To:

Select one

Select one

#N/A

In the comment box below, please add your data annotation for this period.

- As applicable, please indicate the parameters which could have influenced the change during the selected period (e.g., significant events within the community, policy changes, data quality and comprehensiveness).

Please insert comments here

O2(M) Outcome #2: Fewer people were newly identified (new inflows to homelessness are reduced)										
Given your answers in Section 3, you can report monthly result(s) for Outcome #2 using your person-specific data.										
	March 2020	March 2021	March 2022	March 2023	March 2024	March 2025	March 2026	March 2027	March 2028	Target
People who were newly identified (that month)		117	137	122	133	171	161			128

O2(M)

a) What is your baseline year? The baseline is the year from which you measure change. This may be the first year you submitted outcomes, but could be the year where you have the most confidence in your data.

March 2024

New inflows to homelessness will decrease by 4% between March 2024 and March 2028.

b) Please use the comment box below to:

- As applicable, explain any changes to the data reported from the previous CHR (2024-25), including to the data itself, the baseline and the target.
- As applicable, explain the use of “N/A” for one or more data points. As a reminder, no cells should be left blank.
- Optionally, provide any additional context on your data.

The data source has changed from previous reporting. For this 2025-2026 Community Homelessness Report, all data provided is generated from the HIFIS Community Outcomes Report to ensure a representative number from our community.

The target is set to the average number between 2023 and 2024. This specific target has been set as each year we become more confident in our data accuracy, as well as ongoing engagement and information for service providers for HIFIS user training.

Our community also reports By-Name List data to Built for Zero each month for different data reflection.

O3(M) Outcome #3: Fewer people return to homelessness (returns to homelessness are reduced)

Given your answers in Section 3, you can report monthly result(s) for Outcome #3 using your person-specific data.

	March 2020	March 2021	March 2022	March 2023	March 2024	March 2025	March 2026	March 2027	March 2028	Target
Returns to homelessness (that month)		18	35	35	34	28	39			30

O3(M)

a) What is your baseline year? The baseline is the year from which you measure change. This may be the first year you submitted outcomes, but could be the year where you have the most confidence in your data.

March 2024

Returns to homelessness will decrease by 12% between March 2024 and March 2028.

b) Please use the comment box below to:

- As applicable, explain any changes to the data reported from the previous CHR (2024-25), including to the data itself, the baseline and the target.
- As applicable, explain the use of “N/A” for one or more data points. As a reminder, no cells should be left blank.
- Optionally, provide any additional context on your data.

The data source has changed from previous reporting. For this 2025-2026 Community Homelessness Report, all data provided is generated from the HIFIS Community Outcomes Report to ensure a representative number from our community. This number is based on individuals versus counting households. The target is set to the average number between 2023 and 2024. This specific target has been set as each year we become more confident in our data accuracy, as well as ongoing engagement and information for service providers for HIFIS user training. Our community also reports By-Name List data to Built for Zero each month for different data reflection.

O4(M) Outcome #4: Fewer Indigenous peoples experience homelessness (Indigenous homelessness is reduced)										
Given your answers in Section 3, you can report monthly result(s) for Outcome #4 using your person-specific data.										
	March 2020	March 2021	March 2022	March 2023	March 2024	March 2025	March 2026	March 2027	March 2028	Target
Indigenous peoples who experienced homelessness for at least one day (that month)		41	57	71	107	139	235			89

O4(M)

a) What is your baseline year? The baseline is the year from which you measure change. This may be the first year you submitted outcomes, but could be the year where you have the most confidence in your data.

March 2024

Indigenous homelessness will decrease by 17% between March 2024 and March 2028.

b) Please use the comment box below to:

- As applicable, explain any changes to the data reported from the previous CHR (2024-25), including to the data itself, the baseline and the target.
- As applicable, explain the use of “N/A” for one or more data points. As a reminder, no cells should be left blank.
- As applicable, explain how Indigenous partners were engaged in the process of setting the baseline, setting the target, reporting on the outcome and/or interpreting the results.
- Optionally, provide any additional context on your data.

The data source has changed from previous reporting. For this 2025-2026 Community Homelessness Report, all data provided is generated from the HIFIS Community Outcomes Report to ensure a representative number from our community.

The target is set to the average number between 2023 and 2024. O5(M) Outcome #5: Fewer people experience chronic homelessness (chronic homelessness is reduced)

Given your answers in Section 3, you can report monthly result(s) for Outcome #5 using your person-specific data.
 Note: As applicable, your target must be, at minimum, a 50% reduction from your baseline.

	March 2020	March 2021	March 2022	March 2023	March 2024	March 2025	March 2026	March 2027	March 2028	Target
People who experienced chronic homelessness for at least one day (that month)		248	231	274	410	587	1284			205

O5(M)

a) What is your baseline year? The baseline is the year from which you measure change. This may be the first year you submitted outcomes, but could be the year where you have the most confidence in your data.

March 2024

Chronic homelessness will decrease by 50% between March 2024 and March 2028.

b) Please use the comment box below to:

- As applicable, explain any changes to the data reported from the previous CHR (2024-25), including to the data itself, the baseline and the target.
- As applicable, explain the use of “N/A” for one or more data points. As a reminder, no cells should be left blank.
- Optionally, provide any additional context on your data.

O4(A) Outcome #4: Fewer Indigenous peoples experience homelessness (Indigenous homelessness is reduced)										
Given your answers in Section 3, you can report annual result(s) for Outcome #4 using your person-specific data.										
	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25	2025-26	2026-27	2027-28	Target
Indigenous peoples who experienced homelessness for at least one day (that year)				197	249	299	386			223

O4(A)

a) What is your baseline year? The baseline is the year from which you measure change. This may be the first year you submitted outcomes, but could be the year where you have the most confidence in your data.

2023-24

Indigenous homelessness will decrease by 10% between 2023-24 and 2027-28.

b) Please use the comment box below to:

- As applicable, explain any changes to the data reported from the previous CHR (2024-25), including to the data itself, the baseline and the target.
- As applicable, explain the use of "N/A" for one or more data points. As a reminder, no cells should be left blank.
- As applicable, explain how Indigenous partners were engaged in the process of setting the baseline, setting the target, reporting on the outcome and/or interpreting the results.
- Optionally, provide any additional context on your data.

The data source has changed from previous reporting. For this 2025-2026 Community Homelessness Report, all data provided is generated from the HIFIS Community Outcomes Report to ensure a representative number from our community. The target is set to the average number between 2023 and 2024. This specific target has been set as each year we become more confident in our data accuracy, as well as ongoing engagement and information for service providers for HIFIS user training. Our community also reports By-Name List data to Built for Zero each month for different data reflection.

c) **Introducing Data Annotations** – where you can highlight trends and explore the reasons behind them (optional):

Please select two reporting periods below for which you would like to add a data annotation for:

From:

Select one

To:

Select one

#N/A

In the comment box below, please add your data annotation for this period. • As applicable, please indicate the parameters which could have influenced the change during the selected period (e.g., significant events within the community, policy changes, data quality and comprehensiveness).

Please insert comments here

O5(A) Outcome #5: Fewer people experience chronic homelessness (chronic homelessness is reduced)

*Given your answers in Section 3, you can report annual result(s) for Outcome #5 using your person-specific data.
Note: As applicable, your target must be, at minimum, a 50% reduction from your baseline.*

	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25	2025-26	2026-27	2027-28	Target
People who experienced chronic homelessness for at least one day (that year)				892	1062	1236	2184			531

O5(A)

a) What is your baseline year? The baseline is the year from which you measure change. This may be the first year you submitted outcomes, but could be the year where you have the most confidence in your data.

2023-24

Chronic homelessness will decrease by 50% between 2023-24 and 2027-28.

b) Please use the comment box below to:

- As applicable, explain any changes to the data reported from the previous CHR (2024-25), including to the data itself, the baseline and the target.
- As applicable, explain the use of “N/A” for one or more data points. As a reminder, no cells should be left blank.
- Optionally, provide any additional context on your data.

The data source has changed from previous reporting. For this 2025-2026 Community Homelessness Report, all data provided is generated from the HIFIS Community Outcomes Report to ensure a representative number from our community.

The target is set to the average number between 2023 and 2024. This specific target has been set as each year we become more confident in our data accuracy, as well as ongoing engagement and information for service providers for HIFIS user training. Our community also reports By-Name List data to Built for Zero each month for different data reflection.
