Inclusion in Child Care Settings: A Facilitator's Guide to Module Delivery

Join us for a half-day session for training specialists and child care centre supervisors facilitated by Dr. Shelley Moore.

In partnership with the Region of Durham, Shelley has created a set of three professional learning modules on inclusion in early learning and child care settings. To accompany the modules and support their delivery in a face-to-face setting, Shelley has created a facilitator guide and supporting materials.

In this session, Shelley will guide participants through the facilitator resource package and model some of the strategies contained within.

Register here!

Dr. Shelley Moore is a passionate inclusive education researcher, teacher, and storyteller. Her work focuses on supporting teachers to design inclusive classrooms for all learners, including students with intellectual disabilities in grade level academic classrooms through strength-based and responsive approaches.
