

Hanover Court, Town of Whitby

Sanitary Sewage Pumping Station and Force main Replacement

Notice of Construction

Works Department

October 15, 2026

Public Notice #1

What's happening?

The Regional Municipality of Durham has hired Ritestart Ltd. to replace the existing sanitary pumping station and sanitary force main located near the northern limit of Hanover Court. This work is to support future development north of the existing northern limit of Hanover Court.

What work is being done?

- Replacement of existing in-ground sanitary pumping station.
- Temporary bypass pumping during replacement.
- Installation of a new 75-millimetre high density polyethylene (HDPE) force main by horizontal directional drilling.
- Installation of a new electrical feed and panel.

When will this happen?

Ritestart Ltd. plans to be on site the week of November 16, 2026, to start preparing for the work. Construction is expected to finish by February 28, 2027. Weather conditions may impact the work schedule.

How will traffic be affected?

- Temporary lane restrictions and construction-related traffic impacts may be required from time to time to facilitate the work.
- Access to local residences will be maintained throughout construction. Residents will be notified in advance of any significant traffic impacts.

Other important information

- Continuous sanitary service will be maintained throughout construction through the installation of a temporary bypass pumping system.
- The Region does not anticipate any sanitary service disruptions to existing connected houses and will make every effort to complete the work as quickly and efficiently as possible.
- To document existing conditions within the project area, the Region's contractor will undertake pre-construction surveys of properties adjacent to the work area prior to commencement of construction. Following completion of the work, post-construction surveys may also be conducted, where required, to verify that no construction-related impacts have occurred.
- Please be careful when driving in the area for the safety of construction workers, people walking, and people cycling.
