

CONTRACT AWARD NOTICE

THE CORPORATION OF THE TOWNSHIP OF GEORGIAN BAY

RFx Number	RFP2026-05
Description	Road and Sidewalk Needs Study & Transportation Master Plan
Description of Goods/Services	Part A - Road and Sidewalk Needs Study The Township is seeking the services of a qualified consulting firm to complete a comprehensive Road and Sidewalk Needs Study and Condition Assessment for the municipal transportation network. The study will provide a current inventory of transportation assets, evaluate asset condition, identify rehabilitation and replacement needs, and develop a long-term capital investment strategy that supports sustainable service delivery and regulatory compliance. The resulting data and recommendations will form a key component of the Township's asset management and capital planning programs and will support compliance with Ontario Regulation 588/17 – Asset Management Planning for Municipal Infrastructure. The Consultant shall provide all labour, equipment, software, transportation, and professional services necessary to complete the following tasks. Part B - Transportation Master Plan The Township of Georgian Bay is seeking the services of a qualified transportation planning and engineering consulting team to prepare a comprehensive Transportation Master Plan (TMP) that will guide the planning, development, operation, and investment in the Township's transportation system over a 25-year planning horizon. The Transportation Master Plan will establish a long-term vision and implementation framework to support future growth, economic development, tourism, recreation, accessibility, and sustainable mobility while balancing the unique rural, waterfront, and settlement area characteristics of the Township. The completed Transportation Master Plan shall provide the Township with a defensible, data-driven framework for managing transportation infrastructure

	assets, protecting future transportation corridors, developing a Transportation By-Law, supporting Official Plan objectives, enhancing accessibility and connectivity, and aligning future capital investments with community growth and service expectations.
