

Construction notice:

Trussler Road improvements

Kitchener

September - December 2026

Trussler Road from Knechtel Court to Nathalie Street

Notice date: September 21, 2026

About the project

The Region of Waterloo is improving Trussler Road to support the growing community and improve the road network in the area.

The work includes the installation of a sanitary sewer on Trussler Road from Nathalie St to Knechtel Court. The work includes

Timing — starts on or about September 28

Construction is expected to begin on or about September 28, 2026, and is expected to be completed by late December 2026.

Construction impacts

Construction on Trussler Road will take place in three stages. Traffic impacts will change as work progresses:

Stage 1: Lane shift (starting on or about September 28)

For approximately 27 days, traffic will be shifted within the existing roadway between Rickert Way/Nathalie Street and Ottawa Street South/Bleams Road. Two-way traffic will be maintained, with no road closure or detour required.

Stage 2: Northbound closure (approximately 2–3 weeks)

Trussler Road will be closed to northbound traffic between Ottawa Street South/Bleams Road and Nathalie Street. Southbound traffic will remain open, including for drivers travelling from Highway 7/8 toward Ottawa Street South/Bleams Road.

Stage 3: Full closure (approximately 3 weeks)

Trussler Road will be fully closed between Bleams Road and Ottawa Street South.

Detour

No detour will be required during Stage 1, as two-way traffic will be maintained. During

Stages 2 and 3, motorists will be required to follow the designated detour routes outlined below:

Stage 2: Northbound motorists will be detoured via Ottawa Street South, Fischer-Hallman Road and Conestoga Parkway (Highway 7/8).

Stage 3: Motorists will be detoured via Bleams Road, Fischer-Hallman Road and Ottawa Street South.

There may be periods during construction when traffic will need to travel on a gravel surface, as well as times when traffic will need to be controlled with flag persons.

Emergency Services (Police, Fire, Paramedics) have been notified of the construction, closures and detours to minimize any disruptions to services.

Property and business access

All businesses in the construction area will remain open and accessible during construction. Every effort will be made to maintain access to residential and business driveways in the construction area throughout the construction period. Temporary access restrictions may be required to accommodate construction activities. Advance notice will be provided where possible

Please plan for some delays and travel carefully in the construction zone. We request that when driving or walking through and around the construction zone you follow and obey the construction traffic signage for your safety and for the safety of the workers.

Restoration and landscaping

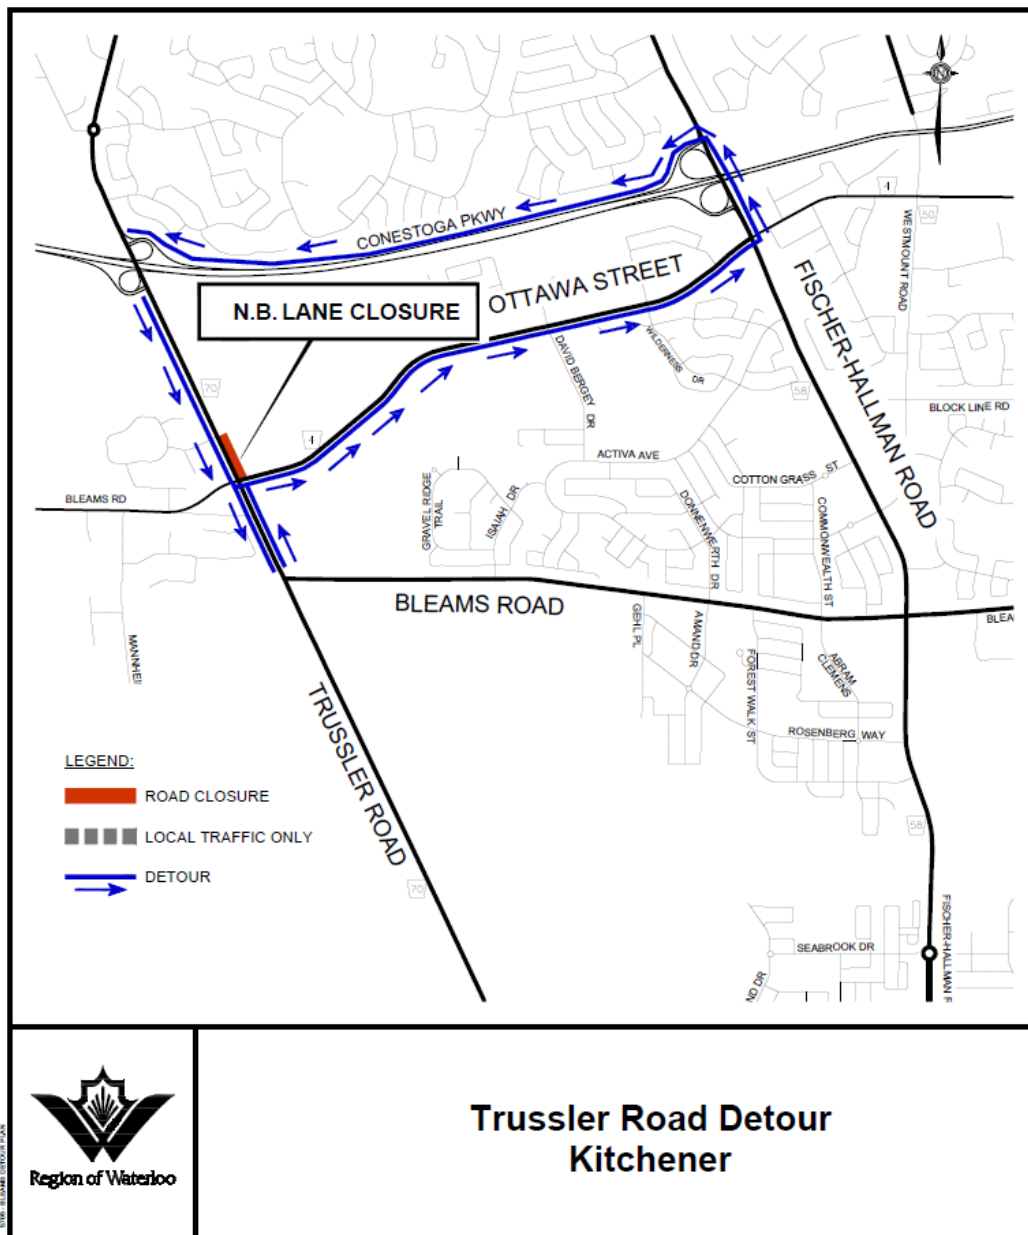

If your driveway or landscaping is damaged by construction, we will replace/reinstate it to pre-construction condition. We will take care of any sod that is replaced for 60 days. After 60 days, all sod maintenance and watering become the responsibility of the property owner.

Dust, mud and vibration

You may notice slight vibrations from the contractor's equipment during construction. All efforts will be made to minimize adverse impacts from construction including dust, mud and vibration.
