

DISTRICT OF SECHLT COMMUNITY WELLNESS AND SAFETY TECHNICAL WORKING GROUP

Meeting Highlights

August 11, 2026

Highlights from the August meeting of the Community Wellness and Safety Technical Working Group include:

New position – Community Safety Roll

The group discussed whether the role should be revised. They looked at the type of focus the position should have. For example, should the position take on more of a community safety liaison roll? It should not be enforcement as that is for the RCMP. The District will be re-posting the position soon.

Empty Lot on Ebbitide

BC Housing received an updated quote for fencing of their two properties, recently bought by the organization.

Fire Ban, Lack of

Much discussion was had surrounding this year's lack of fire ban for the lower Sunshine Coast. Council and staff will bring this forward directly with Ministers during the Union of BC Municipalities in September.
