Re:	2026 Municipal Election – Ward Boundaries

This memo includes important information on how to determine where the ward boundaries are located.

On October 1, 2025, Council approved changes to the Township's ward boundaries, effective for the new term of Council beginning November 15, 2026. Electors will vote for representation based on these new ward boundaries for the upcoming term of Council.

To view specific properties and boundary lines, please use the [Township of Springwater's New Ward Boundary Map](#).

It is important to note that the publicly available [Simcoe County GIS](#) mapping tool does not reflect the new ward boundaries and will only be updated to reflect the changes after November 15, 2026, once they come into effect. As such, please ensure that you are not using this tool to review ward boundaries.

Household counts, per ward, will be provided to all candidates in late August once the Voter's List is received from Elections Ontario. This will assist you with planning for election materials such as pamphlets etc.

Please contact the Clerks Department at clerks@springwater.ca should you have further questions.
