

Temiskaming Shores Public Library

How to search the library catalogue

Go to www.temisklibrary.com

You can use the search bar in the middle of the page. Ensure that the **Catalogue** dial is checked.

Or, Click on **Library Account and Search the Catalogue**. Use the search bar at the top of the main page of the library catalogue page.

- Enter in a title, author, or subject, for example, “dog training”.
- A list of items available will appear. They will include eBooks from Overdrive. If you would like to see only physical items in the library, click on the top bar that says “Everything” and select “Library Search.”
- Click on the blue highlighted title or image of the item shown for more detailed information. The “Availability” box will tell you the call number (where to find it on the shelf), and status of the item (if it is on the shelf or checked out).
- To narrow your search, use the left sidebar to choose options or the “All Fields” dropdown to search by author or title.

If you need help with navigating a library search on our catalogue site, please contact the library at 705-647-4215.
