When an archaeological assessment is completed, archaeologists are required to report their fieldwork start and end dates to the Ministry.

This email is to inform you that fieldwork dates have now been reported for the following project:
Project Name: First Thorold
PIF #: P379-0858-2026

The archaeologist must file a report documenting the assessment results with the ministry by **Mar 25, 2027**.

Replies to this email are undeliverable. Should you have any questions about the assessment or its status, please email: **tirvin@irvinheritage.com**

Thank you,

Archaeology Program, Ministry of Citizenship and Multiculturalism
